**EDITORIAL COMMENT.**

There will be general satisfaction over the acquittal of Mr. R. G. MacEwen, Inspector of Markets, on the charge brought against him of accepting bribes from the Poultry Guild. But the evidence adduced at his trial reveals a state of affairs which the public cannot consider satisfactory. According to the statements of the witnesses for the prosecution, the Poultry Guild agreed to offer bribes to a public officer to induce him to neglect his duties. For many years we have urged upon the attention of the Government the absolute necessity of a strict supervision of the food supply of the Colony, and it is only within recent years that this important department has received that attention which may be deemed necessary for the preservation of the public health. The necessity for supervision was emphasised by the recent report of Dr. Simpson, the plague expert, and in the circumstances, the public will expect the Government to redouble their efforts to prevent dangerous food reaching the consumers. The public would like to know what action the Government intends to take with regard to the witnesses in the MacEwen case. It does not follow that because the jury unanimously decided that the charge against the Inspector had not been proven that the witnesses had committed perjury, but they evidently regarded that evidence as unworthy, and that being so the implication is that there had been a conspiracy to ruin MacEwen, and to have him dismissed because of his attitude towards them in carrying out his duties. There is an assumption that, as an inducement to get their evidence, a promise had been given to those witnesses that they would not be proceeded against for offering bribes, and it would be well if the Government made a public statement dispelling that assumption. It appears to us that the most serious side of the affair is the action of the Poultry Guild. European residents of Hongkong know the power wielded by the Guilds, and, if in addition to the combination for other objects, they are to add combination for the purpose of bribing public officers, then the Guilds become a serious menace to the welfare of this Colony. Will the Government take action, therefore, to regulate, if they cannot suppress, combinations like the Guilds, which, on their own showing, are being used for illegal purposes?

**Mails by Siberia.**

The discussions on mail communications with the Far East, which took place in the House of Commons on the 8th ultimo, reminds us, says a home paper, that, while the utilisation of the postal service to the Far East has been a good deal discussed of late, the possibilities of the Canadian-Pacific route have been allowed to fall into the background. As regards any Russian route for carriage of mails, there is one reason we have not yet seen mentioned by international mails should not be entrusted to the Russian post office. It is that mail matter which passes through Russian hands is not safe from violation. The *Chambers* note, of course, is not peculiar to Russia. Any Englishman who has been in Eastern Europe, south and east of Vienna, and who was known or suspected to have political objects in those quarters, must have noticed that his correspondence has been tampered with. The end of an envelope will be slit and ingeniously gummed together after his correspondence has been read.

**The Great Motor Race.**

Record rates of speed were attained in the motor race in Ireland for the prizes offered by Mr. Gordon Bennett. A newspaper which has been established on the island of Santa Catalina, off the coast of California, will rely upon ethergrams from the mainland to convey to it news of the world.

**The Prince of Wales.**

It is not improbable that the visit of the Prince and Princess of Wales to India may take place in the winter of 1904-5, but no confirmation has reached Simla of the report that Their Royal Highnesses arrive in the month of December.

**Arctic Exploration.**

The Polar exploring vessel *America*, fitted out by Mr. Ziegler, under the leadership of Mr. Anthony Fiala, has sailed from Tromsø, Norway, for Franz Josef Land, where the expedition will winter. Exploring will be undertaken by means of dog sledges.

**The Bikanir Camel Corps.**

The Maharajah of Bikanir has made a fresh offer of a contingent of his Camel Corps for service in Somaliland. The corps is well known for efficiency. Should the Maharajah's offer be accepted, it will prove a source of strength to General Egerton in dealing with the Somali Mullahs.

**Pope Leo XIII in London.**

It is within three years of half-a-century since Pope Leo XIII paid his first and only visit to London, living quietly, even obscurely, in rooms near Piccadilly. Even at this time, when many of our Bishops and Cabinet Ministers were still unborn, Signor Pecci was an Archbishop. His most interesting memory of this far-off glimpse of London is of a visit to the House of Commons, and of the eloquence of O'Connell.

**The Plague in India.**

A Simla telegram dated the 9th inst. says:—A remarkable concomitant of the recent great heat in Upper India is the almost total disappearance of the plague from this area, the Punjab last week reporting only 173 plague deaths and the United Provinces only two. In the Bombay Presidency on the other hand, where the rains have broken, 1,098 plague deaths took place last week, an increase of 304 on the total of the previous seven days. In all India 1,563 plague deaths took place last week against 1,562 in the previous week and 1,058 in the corresponding period of last year.

**He Knew 'Two Up.'**

A Hongkong man, well versed in most forms of sport visited Happy Valley golf links to witness the recent championship contest, and, for the first time, found a game of which he could not grasp even the elements. Eager to learn, he placed himself under the care of an ardent player, who led him round the links, and explained the game. For half an hour the visitor listened attentively; then he began to despair of ever grasping the essentials of golf. A knickerbockered player, with a club, approached and announced 'Two up over there.' 'Ah,' interrupted the visitor, breathing a fervent sigh, 'That's a game I know, anyhow.'

**Amateur Championships.**

The Amateur Athletic Association Championships have resulted as follows:—

100 Yards Flat Race.—Duffy (Anson), won for the fourth year in succession.

220 Yards Flat Race.—Blowell, of the Loughborough Corinthians.

Half-Mile Flat Race.—Blunden, of the Blackheath Harriers.

One Mile and Four Miles Flat.—Shrub, of the South London Harriers.

120 Yards Hurdles.—Garnier, of Oxford University.

2 Miles Steeplechase.—Robinson, of the Northampton Athletic Club.

Two Miles Walking Race.—Negus, of the Northampton Rodley Harriers.

High and Long Jump.—O'Connor, of Waterford, Ireland.

Pole Jump.—Morris.

Putting the Weight and Throwing the Hammer.—Nicholson, of the West Scotland Harriers.

**Sir Hector Macdonald's Charger.**

When the late Sir Hector Macdonald's effects were disposed of in May last, it will be remembered (says the *Times of Ceylon*) that his famous flea-bitten white charger was sold by public auction. The animal was purchased for rupees 400 by Mr. A. J. R. de Soysa, who has now heard from the executors of the will of Sir Hector that it was his desire that the animal should be shot and the hoofs preserved, one to be gifted to a certain Army officer and the other to Sir Hector's son. Mr. de Soysa, who was asked if he would part with the animal, has replied that he could not allow it to be shot, but that he was willing to part with the animal to Lady Macdonald on the condition that it was not to be killed. As an alternative, on the death of the charger he would forward the hoofs as desired.

**LOCAL AND GENERAL.**

**Cambridge and Hindu Philosophy.**

Swami Upadhyaya will this week for India, to secure a lecturer for a three years' course of lectures at Cambridge University on Hindu philosophy, states a London telegram dated 6th inst.

**Death of an Officer.**

An Allahabad telegram dated 10th inst. says:—Captain P. H. Darbyshire, 5th Dragoon Guards, who was travelling to Bombay on his way to England with two brother officers, died on Wednesday in the train at Bhopal of heart apoplexy. Captain Darbyshire served in the South African war, taking part in the operations in Natal in 1893, including the actions at Elandslaagte, Lombard's Kop, the defence of Ladysmith, also the sortie from Ladysmith of the 7th December 1899, and the action of 6th January 1900.

**Canadian Pacific Atlantic Service.**

Mr. D. E. Brown, General Agent of the C. P. R. Co.'s R. M. Steamship Line, sends us a circular announcing that the Company having acquired the fleet, comprising 14 steamships, of the Liverpool, Bristol and London Services, from Messrs Eldon, Dempster and Company, is now running its own Liverpool Direct Passenger Service from Montreal and Quebec, via the Famous St. Lawrence River Route. The passenger fleet is made up of the four new steamers *Lake Manitoulin*, *Lake Champlain*, *Lake Erie*, and *Lake Michigan*, each of which is fitted with twin screws and bilge keels. In addition to splendid first-class berths, superior second-class accommodation is provided. Through passengers booked via C. P. R. Lines, can now travel between China, Japan and England entirely by the Company's steamships and railway, under the unique conditions that the service for the entire distance of 12,010 miles is under the direct management and supervision of the Company.

**Silver and Currency.**

A home paper says:—In usually well-informed quarters in touch with Mexican affairs it is now stated that the currency scheme is practically agreed upon. It is understood that quite recently important conferences with leading European authorities on currency matters have taken place and that the scheme for fixing the dollar basis, it is said, at 50 cents, has virtually been approved. It is interesting to notice that a new loan is to be floated in order to provide a reserve in gold to maintain the currency on a stable basis. The proceeds of this loan, which, it is thought, may be issued in France, will probably be invested in the soundest European securities, and will thus be interest-bearing.

Arising out of the Mexican currency question, the position of Silver has to be considered. It is interesting to notice the current rumour that an agreement is likely to be arrived at ere long between the various silver-using countries as to concerted action in making the necessary purchases of the metal for currency requirements. It is thought that arrangements will be arrived at whereby concerted purchases will be assured, and that they will be distributed evenly over the year so as to keep market fluctuations within narrow limits as possible.

**An Oarsman Drowned.**

The *Rangoon Gazette* of the 8th inst. reports:—Mr. Cooper, an assistant in Messrs. Foulger and Co., who had been only seven or eight months in Rangoon, lost his life on Monday evening while boating on the Royal Lakes. He had gone out in a single scull and when between the Boat-house and the Pavilion in Dalhousie Park, that is, where the Lake is deepest, he must have overbalanced himself and he was thrown into the water. The boat, strange to say, was not upset. There were no boats near at the time and the accident was not seen by anyone; but Mr. Marshall, Principal of Rangoon College, who was in a single scull some distance off, saw Mr. Cooper struggling in the water and rowed to the scene. By the time he arrived the unfortunate man had sunk. Mr. Marshall without delay dived repeatedly and he was quickly joined by Captain Jones, of the King's Regiment, who also went down several times, but without result, the water being so muddy that it was impossible to see. Boats put off from the shore and several attempts were made to recover the body but without result. The police later on came on the scene and dragged the Lakes but in vain, and divers were also at work throughout the following day. In all the years the Boat Club has been established this is, we believe, the first fatal accident on the Lakes to a member.

**A Strong Statement.**

CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY has been the means of saving more human lives and relieving more pain and suffering than any other medicine in the world. There are thousands of homes that always keep a bottle in their medicine chests, for there is no telling when such a medicine is wanted. Get a bottle to-day; it may save your life.

We wish travellers would realize the value of having with them a bottle of Chamberlain's Colic, Cholera, and Diarrhoea Remedy.

Change of water and diet frequently produces diarrhoea, which can be quickly cured with this remedy. For sale by all chemists and medicine vendors. WATKINS Ltd., General Agents.

**THE DEATH OF THE POPE.**

LONDON, July 21, 1903.

The Pope's death was preceded by a short struggle, after which he fell into a profound lethargy, passing away calmly while the Cardinals and Dignitaries, kneeling and weeping, recited the prayers for the dying. The Grand Penitentiary then recited the prayer for the dead, and sixty Cardinals and Dignitaries defiled past the corpse, kissing the hands. The body, clad in white, with the face veiled, rests on a bed.

Cardinal Luigi, Oregis di Santo Steppano, as Cardinal Camerlengo, has assumed the official direction of the Vatican. Cardinal Rampolla immediately ceasing to act as Secretary of State.

**PAYMENT OF THE TROOPS IN SOUTH AFRICA.**

A proposal that India should pay a share of the cost of maintenance of the troops proposed to be kept at the Cape for an emergency has raised much opposition in the Houses of Lords and Commons. Nothing has been decided until a reply has been received from India.

**THE LATE POPE.**

LONDON, July 21, 1903.

The body of the late Pope will be embalmed and removed to-morrow to St. Peter's, where it will lie in State. The Italian Government is arranging admirably for the maintenance of order.
